

UltraBright™
Render Series
LED Strip Light

Product Data Sheet

 Please read all instructions carefully before installation.

Description

Our UltraBright™ Render Series has near-perfect CRI and R9 values to show colors in their true, vibrant forms. With an incredibly high lumen output and full-spectrum lighting, this strip has the remarkable ability to mimic daylight. A short LED pitch guarantees a uniform, bright line of light. From spotlighting favorite pieces of art and photography, to lighting up a movie set and the runway, use this strip to impress a crowd. We use top-quality components and single BIN selection to ensure long-lasting consistency. This series is available in 24V and comes with a 7-year warranty. Heat sink recommended.

7 Year
Warranty

Title 24 is regulated for lamps with color temperatures 4000K and below

Product Features

| | |
|--------------------------|--------------------------------|
| CRI | High CRI of up to 97 |
| R9 and R13 Values | High R9 (98) & R13 (98) values |
| Voltage | 24V DC Input |
| Brightness | Up to 891 lm/ft (2923 lm/m) |
| Efficacy | Up to 133 lm/W |
| LEDs/Foot | 36 LEDs/ft (120/m) |
| Beam Angle | 120° Beam Angle |
| LED Pitch | 5/16" (8 mm) |
| Strip Width | 3/8" (10 mm) |
| Cutting Points | 2 5/8" (66 mm) |
| Max Run Length in Series | 19 ft 8 in (6 m) |
| PCB | 4 oz copper |
| LED Size | 2835 |
| Adhesive Type | 3M VHB 4930 tape (IP20) |
| Ambient Temp | -4°F to 113°F (-20°C to 45°C) |
| Operating Temp | -4°F to 149°F (-20°C to 65°C) |
| Dimmable | Yes |
| IP Rating | IP20 |

Product Specifications

| Product SKU | Color* (CCT) | Watts / Foot (Meter) | Lumen / Foot (Meter) | Luminous Efficacy (Lumens / Watt) | CRI | Gamut Score Rg (Color Sat.) | Relative Fidelity Score (RF) | TLCI (Qa) |
|--------------|--------------|----------------------|-----------------------|-----------------------------------|-----|-----------------------------|------------------------------|-----------|
| UB-RS-30K97C | 3000K | 6.6 W/ft (21.7 W/m) | 843 lm/ft (2766 lm/m) | 124 lm/W | 97 | 101 | 94 | 99 |
| UB-RS-35K97C | 3500K | 6.6 W/ft (21.7 W/m) | 891 lm/ft (2923 lm/m) | 133 lm/W | 97 | 100 | 92 | 99 |
| UB-RS-40K95C | 4000K | 6.6 W/ft (21.7 W/m) | 885 lm/ft (2902 lm/m) | 132 lm/W | 97 | 100 | 91 | 99 |
| UB-RS-50K95C | 5200K | 6.6 W/ft (21.7 W/m) | 855 lm/ft (2805 lm/m) | 126 lm/W | 97 | 99 | 91 | 100 |

*CCT may be +/-100K but always ordered from same bin and will present no noticeable differences perceived by the human eye.

Strip Light Connectors

| Product SKU | Description | Wire Gauge | Amperage Limit* | Diagram |
|--------------------------------------|---|------------|-----------------|---------|
| GRIP-SC-C1-10-0 | Connector with no wire to attach the strip to power. | 22 AWG | 5 Amps | |
| GRIP-SC-C1-10-12 GRIP-SC-C1-10-36 | Connector with 12" or 36" of wire to attach the strip to power. | 22 AWG | | |
| GRIP-SC-C2-10-06 | Jumper connector with 6" of wire to attach two sections of strip together or go around tight corners. | 22 AWG | | |
| GRIP-SC-C3-10-0 | Jumper connector with no wire to attach sections of strip together in a continuous run. | - | | |
| GRIP-SC-CNR-10-5 | Corner connector for 90 degree turns. | - | | |

* Be sure no more than 5 amps is drawn after any solderless connector. Calculate max length of LED strip to follow the solderless connector based on an amperage draw of 0.18 A/ft (0.6 A/m) at 24 volts.

Solderless Connection Guide

Remove 1/4" of 3M adhesive tape on the back of the strip from the end of the strip that you want to connect. It must be removed to allow it to fit properly with the solderless connector.

Check the polarity of the strip to match the positive (+) markings together and negative (-) markings together. If you accidentally close the connector before you're ready, use a small flathead screwdriver to pry the top back open.

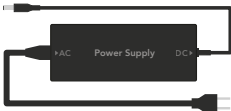

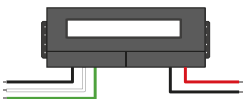

Open the top of the grip connector and insert the LED strip inside. Make sure the LED strip is facing up towards the translucent top and the solder pads are directly above the small hooks on the connector.

Once everything is in order, use pliers to close and lock the connector. You'll hear a "click" sound when it is properly closed.

NOTE: Soldering is the preferred method. If you need further assistance, please download our Solderless Connector Installation Guide from our website.

Compatible Drivers

| | Power Supply | LED Strip Length | Product SKU | Watts | Class 2 | Diagram | |
|------------------------------|----------------------|---|-------------------------|---------------------|---------|--|---|

Safety And Disclosures

1. Installation must be in accordance with local and national electrical code regulations.
2. To ensure safety and correct installation, our strips are intended to be installed by a qualified, licensed electrician.
3. Only install with a Class 2 DC Constant Voltage LED driver to meet UL requirements.
4. Do not install in environment where excessive heat may exist.
5. LED strip lights must be handled with care. Excessive handling, bending, and pressure may damage the product, voiding the warranty.
6. Do not install indoor LED tape light products in outdoor / wet location environments. Only use copper wiring. Use wires rated for at least 176°F (80°C) and certified for use with external connection of electrical equipment.
7. Each maximum run requires a dedicated power feed from the driver. Do not extend beyond the recommended maximum run length.
8. Make sure the appropriate gauge wire is installed between the driver, LEDs, and any dimmers. When choosing wire, calculate voltage drop, maximum amperage rating, and the location ratings on the wire. Improper wire selection and installation could overheat wires, and cause fire.
9. Do not modify the product beyond instructions or warranty will be void.
10. We reserve the right to modify and improve the design of our fixtures without prior notice. Although we try our best to order the same colors every time, due to changes in technology and phosphors over time, we cannot guarantee to match existing installed fixtures for subsequent orders or replacements in regards to product appearance, CCT, or lumen output.

Warranty Information

Limited Warranty

This product has a 7 year limited warranty from the date of shipment. This warranty only includes the main product outlined in this specification sheet and does not include the additional accessories that are used as a reference. Complete warranty details for fixtures and additional accessories are available at <https://www.flexfireleds.com/warranties/> within the Policies section. For warranty related questions please contact the product support team at (support@flexfireleds.com).

Consumer's Acknowledgment

Flexfire LEDs, Inc. stands behind its products when they are used properly and according to our specifications. When you purchase our products, you are agreeing to the terms and conditions outlined in our warranty section. We try our best to make recommendations, but the burden of proper installation, design, and maintenance relies on the purchaser. This limited warranty does not include product failures that are the result of: Not using a voltage regulated power supply to connect the LED product or controls; Connecting LED products to the wrong output voltage; Improper connection of power supplies, LED products, or controls; Connecting LED products or controls directly to any AC power source if they are stated for DC only input; Connecting power supplies backwards to an AC power source; Products used in an inappropriate location or in environmental conditions (temperature, humidity, moisture, etc.) outside the normal specified range; Water damage to products not specifically sold as waterproof products; Electrical power surges and spikes; Damage from hail, flooding, tornado, fire, wind, earthquake, lightning, electrical storm, or any other natural disasters or "force majeure" incidences; Damage caused by a vehicle or other accident; Damage caused when transporting the item; Damage to any products that were modified by the user, used for purposes other than as intended or directed, or connected to LED systems or components not purchased from Flexfire LEDs; Products that have been subjected to misuse, mishandling, misapplication or accident. Products used in connection with any components, devices or systems other than those explicitly approved as compatible with Company's products and listed on Company's website. Excessive wear and tear and/or physical or accidental abuse, loss, or theft. Improper repairs or warranty services performed by someone other than Flexfire LEDs will void this warranty.
